## Internship

---

### Unified Mentor Pvt Ltd (3 Months)

Intern

- Attended masterclasses for HTML, CSS, and JavaScript to build foundational web development skills.
- Completed small tasks and projects to apply and reinforce learning from the masterclasses.
- Worked on small UI design projects, gaining experience in creating user interfaces and improving design skills.
- Collaborated with team members and mentors, enhancing teamwork and communication skills..
- Demonstrated the ability to quickly learn and adapt to new technologies and tasks.
- Applied problem-solving skills to troubleshoot and resolve issues in web development projects.

## Projects

---

### Restaurant Web Application | MongoDB, Express.js, React.js, Node.js

<https://github.com/NimishAware/Resto-App>

- Developed a web application for Hotel Sanjwara, Satara to streamline online ordering and payment processes.
- The app allows customers to browse the menu, add items to a cart, place orders, and pay online, improving order accuracy and reducing wait times.
- It also includes user registration and login features, as well as a separate admin login for managing orders and updating the menu in real-time.
- The Stripe payment system was integrated and used for testing the online payment feature.

### Bookly - Online Book Store | HTML-CSS, JavaScript, PHP, MySQL

<https://github.com/NimishAware/bookstore>

- The project includes a home page that introduces the bookstore, and an about us page that highlights famous authors.
- Users can explore a variety of books on the shop page, add them to a cart, and make purchases.
- For administrators, there's a special login that allows them to manage the website.
- They can add new books to the shop, manage users, and set prices for the books.

## Certifications

---

- IBM SkillsBuild Course in HTML & CSS.
- IBM SkillsBuild Course in DataAnalysis.
- Infosys Springboard Course in Database & SQL.
- Infosys Springboard Course in React js.
